

**DEPARTMENT OF FAMILY MEDICINE  
RESEARCH DIVISION MONTHLY REPORT  
January 2009**

**Research – Benjamin Crabtree, PhD**

The vision of the UMDNJ-RWJMS Family Medicine Research Division is to develop and sustain a nurturing and productive research environment that fosters collaborative transdisciplinary approaches to promote the health of families and communities by improving quality of care and eliminating health-related disparities.

**Message from the Director:**

To start the New Year off on a good footing, on January 6 the Research Division had the inauguration of monthly separate staff and faculty meetings. These meetings are held on the 1<sup>st</sup> Tuesday of each month from 10:00 – 11:00 am and are followed by an opportunity for sharing of insights and ideas at the 11:00 Division meeting. The first meeting focused on brainstorming issues involved in working on grants, with the staff and faculty then coming together to discuss bullet points from each separate meeting. This first meeting also laid the foundation for a positive framework to address staff and faculty issues, concerns, and ideas. The January 27 Division meeting was used to follow-up to the Jan. 6 meeting and to come up with a game plan to implement some of the suggestions brought up at the initial meeting.

In January, Paul Grundy, MD from IBM visited RWJMS to lecture on the Patient Centered Medical Home. During his visit, members of the Department and Division had time to review the cutting edge research on enhancing quality of primary care being undertaken by our faculty and staff. Dr. Grundy expressed his admiration for the impressive work being conducted at RWJMS and is exploring potential opportunities for collaboration in the future.

This month, we say good-bye to Sabrina Chase, NRSA Fellow. She graduated from the Fellowship on January 2, 2009. Sabrina worked with the Division's ULTRA and SCOPE projects during her Fellowship, concentrating on qualitative data collection and analysis. She was the lead author on a manuscript accepted by *Family Practice Management* on "Can your practice RAP?" She also participated in the Fellow's Social Capital project and had the opportunity to collaborate with Division members in the writing of several project-related papers. Finally, the NRSA Fellowship allowed her to finish her book, which is planned for release in the fall of 2009. Sabrina would like to express her appreciation to everyone who contributed to her Fellowship experience; it has enabled her to grow as both a researcher and scholar.

Shawna Hudson was interviewed by Jeff Weber of the Home Tribune. The article "Heartbeats: Study to examine needs of cancer survivors" appeared in print on Jan. 29, 2009. In the article Shawna talks about her K01 work – trial look at specific needs of breast and prostate cancer survivors. She then asks, "Those who are survivors of breast or prostate cancer and are 30 years or older are eligible to take part in the study, although other criteria must be met". More information is available by calling 732-235-8675.

**DEPARTMENT OF FAMILY MEDICINE  
RESEARCH DIVISION MONTHLY REPORT  
January 2009**

Throughout January the NJFMRN administrative team has been meeting with representatives from the Department of Family Medicine, School of Public Health (Middlesex Partnerships against Tobacco) and the Cancer Institute of New Jersey to continue the development of the Network and its interaction with entities across the State. Currently the team is in collaboration with Peter Schad, Ph.D.; Associate Director of Clinical Informatics and his support staff Kevin Meehan and Doreen Loh to redesign the Network database in look and functionality.

The Network portfolio is varied and includes projects on: hypertension, diabetes, EMR/EHR (electronic medical records/electronic health records), survivorship, obesity, social networking, pharmaceutical interactions in practices and pre-pubertal girls and their development, tobacco cessation; air pollution; practice improvement; chemoprevention of breast and prostate cancer. In addition the Network is disseminating information to practices across the State on cancer screening guidelines; tobacco programs and CEU programs for nurses. For additional information visit the website at <http://rwjms.umdj.edu/njfmrn> or contact the office at 732-743-3387.

On **February 24<sup>th</sup>**, Barbara Hale, MSW, LCSW will be presenting **“Bridge Over Troubled Water: Family Medicine and Psychosocial Oncology”**. To participate in the **February 24<sup>th</sup>** CEU program or to obtain information on upcoming programs visit the website. Additional CEU dates for 2009 include- March 31; April 28; May 19; June 23; September 29; October 27 and November 17<sup>th</sup>. Each evening begins at 6 PM and concludes at 8:30PM at the Network office in Somerset, 1 Worlds’ Fair Drive. Registration is required and forms are available on the Network website.

**Network projects include the following:**

- ✎ Understanding Cardiovascular Disease and EMR Use in Community-based PCP’s.
- ✎ TALK<sup>DM</sup> PROJECT (Taking Action by Learning and Knowledge Management to Enhance Diabetes) Building a Medical Home
- ✎ Oxidative Stress from Commuting Exposures: A Biomarker Study Using the New Jersey Family Medicine Research Network.
- ✎ Jersey Girls – A Study of Environmental Factors, Growth and Development in New Jersey Girls.
- ✎ A Randomized Controlled Trial of Controlled Breathing Effects on Ambulatory Blood Pressure. The project aim is to conduct a blinded, randomized controlled trial to test the effect of Guided Breathing Intervention in uncontrolled hypertensives.
- ✎ Increasing Cancer Screening in Obese Patients Using Patient Navigation in Community Practices.
- ✎ A Cancer Survivor Educational Initiative for the Primary Care Workforce.
- ✎ Chemoprevention of Breast and Prostate Cancers in Shift Workers by Dietary Methylselenocysteine: Effects on Circadian Rhythm and Estrogen Receptor-B Cycling.
- ✎ The Influence of Selenium on Biomarkers of Prostate Cancer Risk.
- ✎ Organizational Self-Assessment to Improve Diabetes Care in Primary Care Practices. The study purpose is to test the feasibility of an organizational change intervention designed to improve adherence to evidence-based diabetes treatment guidelines in primary care by improving practice-level self understanding.
- ✎ SCOPE – Supporting Colorectal Outcomes Through Participatory Enhancements.

**John Scott, MD, PhD** gave a presentation at Case Western Reserve Cancer Center titled “An Empirical Model and an Emerging Measure of the Healing Process for Evaluation of Cancer Patients” (Jan. 26)

**Active Grants**

**Clemow, Lynn PI: “RCT of Controlled Breathing Effects on Ambulatory BP” National Heart, Lung, and Blood Institute. R01 HL083056-01A2; 2007 – 2012. Total project costs: \$3,796,669.**

*The goal of the project is to test the efficacy of a guided breathing intervention on ambulatory blood pressure in hypertensive patients drawn from primary care and specialty hypertension practices.*

**Cohen, D., PI: “Using illness visits to address health behavior advice” National Cancer Institute with CWRU (subcontract); 2004 - 2008; total project subcontract costs: \$150,419.**

*This subcontract provides support for conversation analysis in a study which seeks to characterize the way a teachable moment arises and is constructed within physician-patient interaction and to evaluate the effectiveness of this strategy on patient recall of advice,*

**DEPARTMENT OF FAMILY MEDICINE  
RESEARCH DIVISION MONTHLY REPORT  
January 2009**

*motivation to modify behavior and change in health behavior.*

**Cohen D., PI: Prescription for Health Independence Evaluation Unit. Robert Wood Johnson Foundation; 2004 - 2009; total project costs: \$963,576.**

*This multiyear project is performing an ongoing content and process analysis of Robert Wood Johnson Foundation funded projects submitted by Practice Based Research Networks to the Prescription for Life: Promoting Health Behaviors Initiative. Methodologies include a comparative case analysis of projects, built on qualitative and quantitative data collected at the initiative, project, and practice levels.*

**Cohen D., PI: Enhancing the Theory and Practice of Continuous Quality Improvement (CQI) Through a Better Understanding of Organizational Capacities 2008-2010 \$197,914.**

*The goals of this project are 1) to develop empirically grounded new theory that expands our understanding of the factors that enhance (and/or inhibit) the ability of primary care practices to integrate and sustain CQI efforts 2) to develop new measurement tools that accurately capture our expanded understanding of the factors shown to enhance (and/or inhibit) the CQI process in primary care practices.*

**Crabtree, BF, PI: "Enhancing Colorectal CA Screening Through Learning Teams," National Cancer Institute; 2005 – 2011; total project costs: \$2,997,356.**

*This study evaluates a tailored practice-level MAP/RAP intervention that seeks to enhance relationships among practice members in order to improve rates of colorectal cancer screening in primary care practice.*

**Crabtree, BF, PI: "New Jersey Family Physicians Research Network – Cancer Center Support Grant", 2005 – 2010; total project costs: \$806,348.**

*This work supports the NJFPRN to offer investigators an opportunity to have direct access to community-based patients and physicians in order to translate research evidence into community-based primary care practices with a long-term vision of enhancing the quality of care patients receive in New Jersey.*

**Crabtree BF, (subcontract): "The TransforMED National Demonstration Project", American Academy of Family Physicians; 2006 - 2009; total project costs: \$138,977.**

*This subcontract is part of a national project which will demonstrate new knowledge about practice change; payer, patient and practice outcomes using a detailed multi-method assessment of the process of practice change in selected practices across the United States.*

**Crosson, JC, Co-PI: Translating Research into Action for Diabetes II (TRIAD II). Centers for Disease Control and Prevention/National Institute for Diabetes and Digestive and Kidney Diseases (U58/CCU223529). 2004 - 2009; total award \$4,275,000.**

**DEPARTMENT OF FAMILY MEDICINE  
RESEARCH DIVISION MONTHLY REPORT  
January 2009**

*Translating Research Into Action for Diabetes (TRIAD) is a national multi-center study that was created to determine how managed care systems influence the processes and outcomes of diabetes care. The study will describe and evaluate the quality of care and life among people with diabetes through the help from ten health plans and sixty-six provider groups.*

**Crosson, JC, PI: “Organizational self-assessment to improve diabetes care in primary care practices.” National Institute for Diabetes and Digestive and Kidney Diseases.  
R34 resubmission 5/15/08 - 4/20/2010. \$468,000 (total award)**

*Purpose: To test the feasibility of an organizational change intervention focused on improving practice-level self understanding. The goal of the intervention is to improve adherence to evidence-based diabetes treatment guidelines through diabetes registry implementation and use.*

**Crosson, JC, PI: “Building an Implementation Toolset for E-Prescribing” Agency for Healthcare Research and Quality HHS A290200600017 TO#4 8/1/08 – 1/31/10 . \$109,221 (direct) \$170,385 (total)**

*The purpose of this project, led by Doug Bell, MD, Ph.D. at RAND-Health, is to create an E-Prescribing Implementation Toolset and to disseminate this Toolset nationally through AHRQ’s Health IT Portal and other venues. UMDNJ investigators will conduct site visits at successful E-prescribing practices, observe the pilot testing of the toolset, and work on development of the final toolset.*

**DiCicco-Bloom, B., PI: Institutional National Research Services Award (T32). Health Resources and Service Administration, 2008 – 2011. total project award: \$138,840**

*The NRSA fellowship seeks to produce researchers who: 1) are knowledgeable about national, state, and local health promotion and disease prevention; 2) are capable of investigating the appropriateness, effectiveness, and quality of health care in primary care settings; and 3) contribute to ongoing clinical and health policy research.*

**Ferrante Jeanne, PI: “Breast and Cervical Cancer Screening in Obese Women”, NIH/NCI, 1 K07 CA101780-01A2 Dates: 2005 - 2009, Amount funded: \$522,000 [direct], \$563,760 [total].**

*The objectives of this multi-method research project are to quantify the extent of the association of obesity to delayed cancer screening, identify patient and physician barriers to cancer screening in obese women, and develop an interventional plan and materials to increase cancer screening in obese women.*

**Ferrante, J., PI (subcontract): “Developing the Medical Home in Primary Care”; Overlook Hospital Foundation; 1/2008 – 3/2009; \$20,000**

*The objective of this project is to evaluate the implementation and utilization of a patient*

**DEPARTMENT OF FAMILY MEDICINE  
RESEARCH DIVISION MONTHLY REPORT  
January 2009**

*navigator in 4 community primary care practices.*

**Ferrante, J., PI: Developing the Medical Home in Primary Care: Implementation of a Practice-based Patient Navigator”; UMDNJ Team Science Initiative; 2008 – 2009; total project costs: \$10,000.**

*This proposal will help supplement funding already obtained to conduct extensive qualitative analysis to gain real-time insights and understand the barriers and facilitators to the implementation and utilization of the patient navigator in the primary care setting.*

**Ferrante J (PI). "Sister to Sister Navigator Program" (competing continuation grant), April 1, 2008 - March 30, 2009, Susan G. Komen for the Cure North Jersey Affiliate, \$46,900**

*The objective of this project is to determine the effectiveness of a breast health patient navigator in helping women overcome barriers in obtaining breast cancer screening, diagnostic, treatment, and follow-up services. In addition, we will describe the experiences of a patient navigator, what activities and services a navigator provides, and the barriers and facilitators to implementing a patient navigator program.*

**Ferrante, Jeanne, PI: “Factors Affecting Men’s Decisions Regarding Prostate Cancer Screening and Treatment,” pilot project as part of DOD (W81XWH06-1-0514), 9/1/08 – 8/31/09. total project award : \$93,613,**

*The purpose of this exploratory qualitative study is to identify and understand the factors that influence men’s decision regarding prostate cancer screening, diagnosis, and treatment. Results from these interviews will help us to develop strategies to assist men in making informed decisions regarding prostate cancer screening and treatment and guide the design of a future patient navigator outreach program to educate and navigate men to prostate cancer screening, diagnosis and treatment programs.*

**Hudson, S., PI: "Life After Cancer: Examining Survivor Transitions from Specialist to Primary Care," National Cancer Institute; K01 CA131500-01A1; 2008 - 2013; total project costs \$643,361.**

*Using a combination of interviewing and survey research methodologies, the proposed studies build on each other to (1) explore early stage breast and prostate cancer survivors' attitudes toward primary care for follow-up cancer screening and (2) develop and validate a survey to be implemented in a study that describes primary care usage and assesses cognitive-affective, patient support and demographic factors that affect how survivors use specialists and primary care physicians for follow-up care.*

**DEPARTMENT OF FAMILY MEDICINE  
RESEARCH DIVISION MONTHLY REPORT  
January 2009**

**Hudson, S., PI: “Life After Cancer: Examining Survivor Transitions from Specialist to Primary Care” Study 1 Qualitative Data Collection and Survey Development, Department of Defense/Cancer Institute of New Jersey, DAMD17-01-1-0755, 2008-2009, total project costs \$65,000**

*A qualitative study of 36 early stage breast and prostate cancer survivors’ attitudes toward primary care for follow-up cancer screening and care that explores the roles survivors want primary care clinicians to play in their follow-up cancer care. Comparative analyses of survivors who received treatment at comprehensive cancer centers versus those treated in community settings will be conducted.*

**Orzano AJ, PI: Capacity in Organizational Research, AHRQ (K08 HS014018) Career Development Award; 2004 – 2009; total project costs: \$435,219.**

*This grant supports a variety of educational strategies designed to make Dr. Orzano an expert in relevant organizational performance measure and to enhance his skills in survey and multimethod research approaches.*

**Tallia A, PI: Academic Administrative Units in Primary Care (also known as the Title VII) National Research Service Award 9/1/2008 – 8/31/2011, \$876,385**

*The Department of Family Medicine at UMDNJ/RWJMS proposes a three-year intensive project to enhance the community-based participatory research and public policy impact capacity of its family medicine research. Building on an exemplary record of academic productivity, this project will enable the Department to implement a multifaceted research infrastructure.*

**Shaw E: (subcontract PI): “Using learning teams for reflective adaptation for diabetes”; NIDDK; 2005 - 2010 subcontract project amount: \$315,363**

*A subcontract with the University of Colorado (David West, Principal Investigator) is comparing the magnitude and timing of the intervention effects with a state of the art quality improvement effort that focuses on diabetes.*

**Crabtree, BF, PI: "Practice Redesign to Improve Depression Care – PRIDE Care" (subcontract), Funding agency: NIMH; 2006-2010; Project total costs: \$167,732.**

*This subcontract will assist the main study in a group randomized trial to evaluate a Chronic Care Improvement intervention for implementing and sustaining chronic care office systems to improve depression care in 36 small, semi-autonomous, mixed-payer community-based primary care practices.*

**Pending grant applications (submitted)**

**Clemow, Lynn, PI: “Group Psycho-Education for Cancer Survivors Ending Treatment,” R21 to NCI, \$275,000 [direct], \$429,000 [total].**

**DEPARTMENT OF FAMILY MEDICINE  
RESEARCH DIVISION MONTHLY REPORT  
January 2009**

*This proposed innovative group psycho-educational intervention will assist cancer survivors in their transition out of active cancer treatment, including promoting their emotional well-being, overall quality of life, and skills for self-managing their post-cancer screening and care.*

**Cohen, Deborah, PI: “Cardiovascular Disease Care and EMR Use in Community-based Primary Care Practice,”** R21 to NHLBI, \$275,000 [direct], \$429,000 [total].

*This study paves the way for innovative interventions to improve cardiovascular disease care by identifying strategies that support effective EMR use and high quality cardiovascular disease care in community-based primary care settings.*

**Crabtree, Benjamin F., PI: “Integrating Practice and Community Cancer Control,”** K05 application to NCI, \$777,809 [direct], \$840,034 [total].

*This established investigator in Cancer Prevention and Control award will foster this investigator’s ability to advance the field of dissemination and implementation of cancer control evidence.*

**Ferrante, Jeanne, PI: “Increasing Cancer Screening in Obese Women Using Patient Navigation,”** R01 application to NCI, \$2,486,146 [direct], \$3,878,387 [total]

*This randomized control trial using mixed-methods will evaluate the effectiveness of a patient navigator program in increasing breast, cervical, and colorectal cancer screening rates among obese women in primary care practices.*

**Orzano, J, PI: “Taking Action by Learning and Knowledge Management to Improve Diabetes Mellitus,”** R34 application to NIDDK, \$300,000 [direct], \$475,540 [total].

*This planning grant seeks to test a combined organizational and patient level intervention to improve glycemic, blood pressure, and lipid control in adult patients with diabetes by enhancing patient self-management support.*

**Wu, J, PI: Knowledge, attitudes and barriers related to human papilloma virus (HPV) vaccination among underserved Latina women Merck Investigator-Initiated Studies Program 9/1/2008 – 8/31/2009, \$142,594**

*The purpose of this study is to conduct in-depth interviews of underserved Latina women who are eligible for the HPV vaccine or are mothers of vaccine-eligible adolescents. Study findings will directly inform the design of culturally appropriate interventions aimed at increasing HPV vaccination rates among this population.*
