

**DEPARTMENT OF FAMILY MEDICINE  
RESEARCH DIVISION MONTHLY REPORT  
November, 2008**

**Research – Benjamin Crabtree, PhD**

The vision of the UMDNJ-RWJMS Family Medicine Research Division is to develop and sustain a nurturing and productive research environment that fosters collaborative transdisciplinary approaches to promote the health of families and communities by improving quality of care and eliminating health-related disparities.

**Message from the Director:**

In addition to enjoying Thanksgiving dinner, many members attended the 2008 Annual NAPCRG Conference in San Juan, Puerto Rico. Those attending NAPCRG and formally presenting in workshops, poster presentations and/or podium presentations included **John Scott, Bijal Balasubramanian, Elizabeth Clark, Deborah Cohen, Benjamin Crabtree, Jesse Crosson, Rebecca Etz, Jeanne Ferrante, Nicole Isaacson, Justine Wu, Eric Shaw, and Barbara DiCicco-Bloom**. Prior to departing for Puerto Rico, each of these members presented at the monthly Department meeting to share their stories with the rest of the department. In addition, Drs. John Scott, Jesse Crosson and Rebecca Etz gave a preview presentation at the November 4 Research Division on the papers/poster that was accepted for presentation at the NAPCRG Conference.

**Shawna Hudson** presented a poster at the Annual Meetings of the American Public Health Association, San Diego CA, November 2008 -- Lewis M, Wackowski O, **Hudson SV**. (2008) "Perceptions of Latino immigrants and long-term residents about cancer clinical trial participation."

**Rebecca Etz** attended the 107<sup>th</sup> Annual Meeting of the American Anthropological Association (San Francisco, CA) from Nov. 19-23. She organized and chaired a session entitled "Compromising Positions – Can Anthropology Survive Going Public?" and presented a paper "What's Rigorous Is What's Measureable."

In mid-November **Benjamin Crabtree** participated in the NJEDge Conference in Princeton, NJ as part of a discussion on new informatics applications including those that might be possible in a practice based research network.

**DEPARTMENT OF FAMILY MEDICINE  
RESEARCH DIVISION MONTHLY REPORT  
November, 2008**

**New Jersey Family Medicine Research Network – NJFMRN**

On November the 18<sup>th</sup>, Dr. Robert Like presented the final 2008 continuing education program to Network nurses. The topic for the evening was “Culturally Competent Patient-Centered Care”. RN and LPN’s representing over 14 Network practices shared the evening. Dr. Like is the Director for the Center for Healthy Families & Cultural Diversity and is world renowned for his work in cultural competency and health professions education.

Over the past year, approximately 70 nurses have participated in the CEU program. Network Administration and the practice nurses would like to thank Regina Cunningham, PhD, RN, AOCN and Chief Nursing Officer at CINJ and Barbara DiCicco-Bloom, PhD, RN the Director of the HRSA Fellowship for their direction and support in 2008 and look forward to the programs in 2009. In addition, at this time it is appropriate to thank the presenters that have shared their passions and knowledge with NJFMRN practice nurses over the past 11 months. Presenters and topics in 2008 included: Rita Musanti, PhD, APN-C on “Prevention and Wellness”; Benjamin Chavez, PharmD on “Psychiatric Medications”; Niyati Parekh, PhD on “Obesity”; Harriet Black, RN, MSN, CDE on “Diabetes Treatment and Patient Self Care”; Maureen Huhmann, MS, RD on “Nutrition”; Fred Kobylarz, MD on “Health Literacy and Geriatrics”; Emanuel Lerner, MD on “Vaccines to Prevent Diseases Past and Current” and Dr. Robert Like as indicated above

**2009** CEU program dates include - February 24; March 31; April 28; May 19; June 23; September 29; October 27 and November 17<sup>th</sup>. Registration forms for the 2009 programs will be available beginning January 5, 2009. Visit the Network website <http://rwjms.umdnj.edu/njfmrn> for research applications and to register for upcoming events.

Mid November, Benjamin Crabtree, PhD, NJFMRN Research Director and John Scott, MD, PhD, NJFMRN Medical Director attended and presented at the 36<sup>th</sup> North American Primary Care Research Group Annual Meeting (NAPCRG) in Puerto Rico. NAPCRG is well known for its rich diversity of perspectives, experiences and insights of primary care researchers from around the world.

Dr. Crabtree was a contributing author at multiple “Paper Sessions” including: Tales of Tailored Facilitation from the National Demonstration Project”, “Discerning Dynamics for Understanding Chronic Illness” and “Characteristics of the “Patient-Centered Medical Home and Receipt of Preventive Health Services”. Dr. Scott did a poster abstract on “Development of the Healing Relationship Index”.

**Network projects include the following:**

- ✚ SCOPE – Supporting Colorectal Outcomes Through Participatory Enhancements.
- ✚ Oxidative Stress from Commuting Exposures: A Biomarker Study Using the NJFMRN
- ✚ Jersey Girls – A Study of Environmental Factors, Growth and Development in New Jersey Girls.
- ✚ A Randomized Controlled Trial of Controlled Breathing Effects on Ambulatory Blood Pressure.
- ✚ Increasing Cancer Screening in Obese Patients Using Patient Navigation in Practices.
- ✚ Understanding Cardiovascular Disease and EMR Use in Community-based PCP’s.
- ✚ A Cancer Survivor Educational Initiative for the Primary Care Workforce.
- ✚ Chemoprevention of Breast and Prostate Cancers in Shift Workers by Dietary Methylselenocysteine: Effects on Circadian Rhythm and Estrogen Receptor-B Cycling.
- ✚ Organizational Self-Assessment to Improve Diabetes Care in Primary Care Practices.

**Rebecca Etz** (Nov. 19-23) attended the 107<sup>th</sup> Annual Meeting of the American Anthropological Association (San Francisco, CA) She organized and chaired a session entitled "Compromising Positions – Can Anthropology Survive Going Public?" and presented a paper "What's Rigorous Is What's Measureable"

**Deborah Cohen and Bijal Balasubramanian** are invited to present their work:

**Cohen DJ, Balasubramanian BA, Isaacson N.** Translating behavioral interventions into primary care practice. Accepted for presentation at Society of Behavioral Medicine Annual Meeting on April 22 - 25, 2009, at the Palais des congres de Montreal in Montreal, Quebec, Canada.

**DEPARTMENT OF FAMILY MEDICINE  
RESEARCH DIVISION MONTHLY REPORT  
November, 2008**

**Jeanne Ferrante, Bijal Balasubramaina, Shawna Hudson, Benjamin Crabtree** are invited to present their work:

**Ferrante JM, Balasubramanian BA, Hudson SV, Orzano AJ, Crabtree BF.** Characteristics of The Patient-Centered Medical Home and Receipt of Preventive Health Services. Accepted for presentation at the 42nd STFM Annual Spring Conference, April 29 - May 3, 2009 in Denver.

**Shawna Hudson** presented a poster at the Annual Meeting of the American Public Health Association, San Diego, CA - Lewis M, Wackowski O, **Hudson SV.** (2008) Perceptions of Latino immigrants and long-term residents about cancer clinical trial participation..

**Shawna Hudson's** poster has been accepted at the Society of Behavioral Medicine's 30th Annual Meeting and Scientific Sessions, which will be held April 22 - 25, 2009, at the Palais des congres de Montreal in Montreal, Quebec, Canada. **Hudson SV, Hahn K, Ohman-Strickland P, Cunningham RS,** Miller SM, **Crabtree BF.** Breast, Colorectal and Prostate Cancer Screening for Adult Cancer Survivors and Non-Cancer Patients in Primary Care

**Active Grants**

**Clemow, Lynn PI: "RCT of Controlled Breathing Effects on Ambulatory BP" National Heart, Lung, and Blood Institute. Ro1 HL083056-01A2; 2007 – 2012. Total project costs: \$3,796,669.**

*The goal of the project is to test the efficacy of a guided breathing intervention on ambulatory blood pressure in hypertensive patients drawn from primary care and specialty hypertension practices.*

**Cohen, D., PI: "Using illness visits to address health behavior advice" National Cancer Institute with CWRU (subcontract); 2004 - 2008; total project subcontract costs: \$150,419.**

*This subcontract provides support for conversation analysis in a study which seeks to characterize the way a teachable moment arises and is constructed within physician-patient interaction and to evaluate the effectiveness of this strategy on patient recall of advice, motivation to modify behavior and change in health behavior.*

**Cohen D., PI: Prescription for Health Independence Evaluation Unit. Robert Wood Johnson Foundation; 2004 - 2009; total project costs: \$963,576.**

*This multiyear project is performing an ongoing content and process analysis of Robert Wood Johnson Foundation funded projects submitted by Practice Based Research Networks to the Prescription for Life: Promoting Health Behaviors Initiative. Methodologies include a comparative case analysis of projects, built on qualitative and quantitative data collected at the initiative, project, and practice levels.*

**DEPARTMENT OF FAMILY MEDICINE  
RESEARCH DIVISION MONTHLY REPORT  
November, 2008**

**Cohen D., PI: Enhancing the Theory and Practice of Continuous Quality Improvement (CQI) Through a Better Understanding of Organizational Capacities \$197,914.**

*The goals of this project are 1) to develop empirically grounded new theory that expands our understanding of the factors that enhance (and/or inhibit) the ability of primary care practices to integrate and sustain CQI efforts 2) to develop new measurement tools that accurately capture our expanded understanding of the factors shown to enhance (and/or inhibit) the CQI process in primary care practices.*

**Crabtree, BF, PI: “Enhancing Colorectal CA Screening Through Learning Teams,” National Cancer Institute; 2005 – 2010; total project costs: \$2,997,356.**

*This study evaluates a tailored practice-level MAP/RAP intervention that seeks to enhance relationships among practice members in order to improve rates of colorectal cancer screening in primary care practice.*

**Crabtree, BF, PI: “New Jersey Family Physicians Research Network – Cancer Center Support Grant”, 2005 – 2010; total project costs: \$806,348.**

*This work supports the NJFPRN to offer investigators an opportunity to have direct access to community-based patients and physicians in order to translate research evidence into community-based primary care practices with a long-term vision of enhancing the quality of care patients receive in New Jersey.*

**Crabtree BF, (subcontract): "The TransforMED National Demonstration Project", American Academy of Family Physicians; 2006 - 2009; total project costs: \$138,977.**

*This subcontract is part of a national project which will demonstrate new knowledge about practice change; payer, patient and practice outcomes using a detailed multi-method assessment of the process of practice change in selected practices across the United States.*

**Crosson, JC, Co-PI: Translating Research into Action for Diabetes II (TRIAD II). Centers for Disease Control and Prevention/National Institute for Diabetes and Digestive and Kidney Diseases (U58/CCU223529). 2004 - 2009; total award \$4,275,000.**

*Translating Research Into Action for Diabetes (TRIAD) is a national multi-center study that was created to determine how managed care systems influence the processes and outcomes of diabetes care. The study will describe and evaluate the quality of care and life among people with diabetes through the help from ten health plans and sixty-six provider groups.*

**Crosson, JC, PI: “Organizational self-assessment to improve diabetes care in primary care practices.” National Institute for Diabetes and Digestive and Kidney Diseases. R34 resubmission 5/15/08-4/20/2010. \$468,000 (total award)**

**DEPARTMENT OF FAMILY MEDICINE  
RESEARCH DIVISION MONTHLY REPORT  
November, 2008**

*Purpose: To test the feasibility of an organizational change intervention focused on improving practice-level self understanding. The goal of the intervention is to improve adherence to evidence-based diabetes treatment guidelines through diabetes registry implementation and use.*

**Crosson, JC, PI: “Building an Implementation Toolset for E-Prescribing” Agency for Healthcare Research and Quality HHSA290200600017 TO#4 8/1/08 – 1/31/10 \$109,221 \$170,385 (total award)**

*The purpose of this project, led by Doug Bell, MD, Ph.D. at RAND-Health, is to create an E-Prescribing Implementation Toolset and to disseminate this Toolset nationally through AHRQ’s Health IT Portal and other venues. UMDNJ investigators will conduct site visits at successful E-prescribing practices, observe the pilot testing of the toolset, and work on development of the final toolset.*

**DiCicco-Bloom, B., PI: Institutional National Research Services Award (T32). Health Resources and Service Administration, 2003 – 2008; total project costs: \$1,319,174.**

*The NRSA fellowship seeks to produce researchers who: 1) are knowledgeable about national, state, and local health promotion and disease prevention; 2) are capable of investigating the appropriateness, effectiveness, and quality of health care in primary care settings; and 3) contribute to ongoing clinical and health policy research.*

**DiCicco-Bloom, B., PI: Institutional National Research Services Award (T32). Health Resources and Service Administration, 2008 – 2010**

*The NRSA fellowship seeks to produce researchers who: 1) are knowledgeable about national, state, and local health promotion and disease prevention; 2) are capable of investigating the appropriateness, effectiveness, and quality of health care in primary care settings; and 3) contribute to ongoing clinical and health policy research.*

**Ferrante Jeanne, PI: “Breast and Cervical Cancer Screening in Obese Women”, NIH/NCI, 1 K07 CA101780-01A2 Dates: 2005 - 2009, Amount funded: \$522,000 [direct], \$563,760 [total].**

*The objectives of this multi-method research project are to quantify the extent of the association of obesity to delayed cancer screening, identify patient and physician barriers to cancer screening in obese women, and develop an interventional plan and materials to increase cancer screening in obese women.*

**Ferrante, J., PI (subcontract): “Developing the Medical Home in Primary Care”; Overlook Hospital Foundation; 1/2008 – 3/2009; \$20,000**

*The objective of this project is to evaluate the implementation and utilization of a patient navigator in 4 community primary care practices.*

**DEPARTMENT OF FAMILY MEDICINE  
RESEARCH DIVISION MONTHLY REPORT  
November, 2008**

**Ferrante, J., PI: Developing the Medical Home in Primary Care: Implementation of a Practice-based Patient Navigator”; UMDNJ Team Science Initiative; 2008 – 2009; total project costs: \$10,000.**

*This proposal will help supplement funding already obtained to conduct extensive qualitative analysis to gain real-time insights and understand the barriers and facilitators to the implementation and utilization of the patient navigator in the primary care setting.*

**Ferrante J (PI). "Sister to Sister Navigator Program" (competing continuation grant), April 1, 2008 - March 30, 2009, Susan G. Komen for the Cure North Jersey Affiliate, \$46,900**

*The objective of this project is to determine the effectiveness of a breast health patient navigator in helping women overcome barriers in obtaining breast cancer screening, diagnostic, treatment, and follow-up services. In addition, we will describe the experiences of a patient navigator, what activities and services a navigator provides, and the barriers and facilitators to implementing a patient navigator program.*

**Ferrante, Jeanne, PI: “Factors Affecting Men’s Decisions Regarding Prostate Cancer Screening and Treatment,” pilot project as part of DOD (W81XWH06-1-0514), \$93,613, September 1, 2008.**

*The purpose of this exploratory qualitative study is to identify and understand the factors that influence men’s decision regarding prostate cancer screening, diagnosis, and treatment. Results from these interviews will help us to develop strategies to assist men in making informed decisions regarding prostate cancer screening and treatment and guide the design of a future patient navigator outreach program to educate and navigate men to prostate cancer screening, diagnosis and treatment programs.*

**Hudson, S., PI: "Life After Cancer: Examining Survivor Transitions from Specialist to Primary Care," National Cancer Institute; K01 CA131500-01A1; 2008 - 2013; total project costs \$643,361.**

*Using a combination of interviewing and survey research methodologies, the proposed studies build on each other to (1) explore early stage breast and prostate cancer survivors' attitudes toward primary care for follow-up cancer screening and (2) develop and validate a survey to be implemented in a study that describes primary care usage and assesses cognitive-affective, patient support and demographic factors that affect how survivors use specialists and primary care physicians for follow-up care.*

**Hudson, S., PI: “Life After Cancer: Examining Survivor Transitions from Specialist to Primary Care” Study 1 Qualitative Data Collection and Survey Development, Department of Defense/Cancer Institute of New Jersey, DAMD17-01-1-0755, 2008-2009, total project costs \$65,000**

**DEPARTMENT OF FAMILY MEDICINE  
RESEARCH DIVISION MONTHLY REPORT  
November, 2008**

*A qualitative study of 36 early stage breast and prostate cancer survivors' attitudes toward primary care for follow-up cancer screening and care that explores the roles survivors want primary care clinicians to play in their follow-up cancer care. Comparative analyses of survivors who received treatment at comprehensive cancer centers versus those treated in community settings will be conducted.*

**Orzano AJ, PI: Capacity in Organizational Research, AHRQ (K08 HS014018) Career Development Award; 2004 – 2008; total project costs: \$435,219.**

*This grant supports a variety of educational strategies designed to make Dr. Orzano an expert in relevant organizational performance measure and to enhance his skills in survey and multimethod research approaches.*

**Tallia A, PI: Academic Administrative Units in Primary Care (also known as the Title VII) National Research Service Award 9/1/2008 – 8/31/2011, \$876,385**

*The Department of Family Medicine at UMDNJ/RWJMS proposes a three-year intensive project to enhance the community-based participatory research and public policy impact capacity of its family medicine research. Building on an exemplary record of academic productivity, this project will enable the Department to implement a multifaceted research infrastructure.*

**Crabtree, BF, (subcontract PI): “Using learning teams for reflective adaptation for diabetes”; NIDDK; 2005 - 2010 subcontract project amount: \$315,363**

*A subcontract with the University of Colorado (Paul Nutting, Principal Investigator) is comparing the magnitude and timing of the intervention effects with a state of the art quality improvement effort that focuses on diabetes.*

**Crabtree, BF, PI: "Practice Redesign to Improve Depression Care – PRIDE Care" (subcontract), Funding agency: NIMH; 2006-2010; Project total costs: \$167,732.**

*This subcontract will assist the main study in a group randomized trial to evaluate a Chronic Care Improvement intervention for implementing and sustaining chronic care office systems to improve depression care in 36 small, semi-autonomous, mixed-payer community-based primary care practices.*

**Pending grant applications (submitted)**

**Clemow, Lynn, PI: “Group Psycho-Education for Cancer Survivors Ending Treatment,” R21 to NCI, \$275,000 [direct], \$429,000 [total].**

*This proposed innovative group psycho-educational intervention will assist cancer survivors in their transition out of active cancer treatment, including promoting their emotional well-being, overall quality of life, and skills for self-managing their post-cancer screening and care.*

**DEPARTMENT OF FAMILY MEDICINE  
RESEARCH DIVISION MONTHLY REPORT  
November, 2008**

**Cohen, Deborah, PI: “Cardiovascular Disease Care and EMR Use in Community-based Primary Care Practice,”** R21 to NHLBI, \$275,000 [direct], \$429,000 [total].

*This study paves the way for innovative interventions to improve cardiovascular disease care by identifying strategies that support effective EMR use and high quality cardiovascular disease care in community-based primary care settings.*

**Crabtree, Benjamin F., PI: “Integrating Practice and Community Cancer Control,”** K05 application to NCI, \$777,809 [direct], \$840,034 [total].

*This established investigator in Cancer Prevention and Control award will foster this investigator’s ability to advance the field of dissemination and implementation of cancer control evidence.*

**Ferrante, Jeanne, PI: “Increasing Cancer Screening in Obese Women Using Patient Navigation,”** R01 application to NCI, \$2,486,146 [direct], \$3,878,387 [total]

*This randomized control trial using mixed-methods will evaluate the effectiveness of a patient navigator program in increasing breast, cervical, and colorectal cancer screening rates among obese women in primary care practices.*

**Orzano, J, PI: “Taking Action by Learning and Knowledge Management to Improve Diabetes Mellitus,”** R34 application to NIDDK, \$300,000 [direct], \$475,540 [total].

*This planning grant seeks to test a combined organizational and patient level intervention to improve glycemic, blood pressure, and lipid control in adult patients with diabetes by enhancing patient self-management support.*

**Wu, J, PI: Knowledge, attitudes and barriers related to human papilloma virus (HPV) vaccination among underserved Latina women Merck Investigator-Initiated Studies Program 9/1/2008 – 8/31/2009, \$142,594**

*The purpose of this study is to conduct in-depth interviews of underserved Latina women who are eligible for the HPV vaccine or are mothers of vaccine-eligible adolescents. Study findings will directly inform the design of culturally appropriate interventions aimed at increasing HPV vaccination rates among this population.*
