

GRADUATE SCHOOL OF BIOMEDICAL SCIENCES

University of Medicine & Dentistry of New Jersey

Approval of Research Advisory Committee Membership

The purpose of a Research Advisory Committee is to guide the candidate during the period of thesis research. The Committee consists of the thesis advisor (mentor) and at least two additional individuals, at least one of whom is outside the student's department. This committee might be identical to the Examination/Dissertation Defense Committee, but that is not a requirement. The Committee must meet annually with the student to evaluate the student's progress. A written report is to be submitted at that time to the candidate, the department chairman and the Graduate School.

Student's Name _____ Degree: **Ph.D.** **M.S.**

Graduate Program: _____
